## WATERS

If you buy a Waters Piano you are assured of two things; of getting a good toned piano and of getting it at a reasonable price.

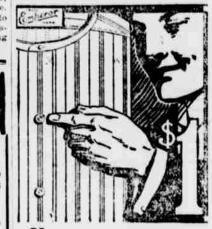

The good tone of the Waters Piano excels in power and brilliancy and sweet musical quality, but it is also a durable tone that will stand up well with hard usage and under trying conditions.

The reasonable prices of the Waters Pianos are in the interests of true economy, and represent highest piano quality at genuine piano values.

Waters Autola playerpianos have the same superb tone quality as the Waters Pianos and the Autola prices also are reasonable. Send Postal for Catalogue.
